A&T

LLC Avtomobili i Traktory

Director: Yevgeniy Bychkunov

454091, Chelyabinsk, Svobody Str 92A, 23
 tel. 8 (351) 262 62 37
 fax: 8 (351) 262 62 37
 e-mail: 19880515@mail.ru
 www.yumk.ru

Established in 2001 in the city of Chelyabinsk
 Number of employees: 35 people, production area: 2,500 m²
 production capacity: 12 machines per month.

Types of equipment produced:

- Heavy motor graders
250 models DZ-98VM and A-98M

RM | TEREX

CJSC Bryanskiy Arsenal

Director General: Kirill Epstein

241050, Bryansk, Kalinina Str, bld 98
 tel. +7 (495) 728 49 55
 fax: +7 (495) 728 49 56
 e-mail: info.@arsenal-sdm.ru; info@rm-terex.com
 www.rm-terex.com

CJSC Bryanskiy Arsenal (part of RM-Terex that, in turn, is a part of the machine-building holding Russian Machines) is a Russian manufacturer of construction and road machinery with the full-cycle production of motor graders on the territory of the Russian Federation.

Types of equipment produced:

- Motor graders

JSC Velikolukskiy zavod Leskhovmash

Director General: Konstantin Vasilevsky

182112 Pskovskaya Oblast, Velikiye Luki,
Novoslobodskaya Naberezhnaya 54
tel. 8 (81153) 7 44 29, 7 49 38
fax: 8 (81153) 7 49 38, 7 52 99
e-mail: leshovmash@list.ru, www.leshovmash.ru

JSC Velikolukskiy zavod Leskhovmash is one of the leading and largest forest industry enterprises with a rich history, traditions and more than 60 years of work experience.

The plant was founded on September 18, 1953. At present, JSC Velikolukskiy zavod Leskhovmash takes the lead among the manufacturers of machine-building products, ensuring the production of competitive machines for forestry and timber industry, road and municipal services, departments of the Ministry of Emergency Situations, oil and gas industry.

Types of equipment produced:

- Excavators-loaders

ДОРТЕХСЕРВИС+

LLC Dorteckhservis+

Director: Viktor Kholbojev

Registered address: 302005, Oriol, Spivaka Str.
81A, liter B
address: 302043, Oriol, Maslozavodskoy Ln,
bld 9A
tel. 8 (4862) 72 07 42
fax: 8 (4862) 72 07 42
e-mail: dt-inter@mail.ru
www.Orelgreyder.ru

Production of motor graders, overhaul of motor graders, sale of spare parts

Types of equipment produced:

- Motor graders

CJSC Drobmash

Director General: Michael Müller

607061, Nizhegorodskaya Oblast,
Vyksa, Zavodskaya Str, bld 1
tel. 8 (800) 550 42 46
fax: 8 (83177) 3 19 32
e-mail: info@drobmash.ru
www.drobmash.ru

CJSC Drobmash is a unique machine-building enterprise founded in 1932.

It produces the widest range of crushing and screening equipment, and provides comprehensive support services. It is the only producer of self-propelled crushing and screening complexes on the territory of the Russian Federation and the CIS.

Types of equipment produced:

- Rotary excavators

LLC DST-URAL

Director: Yevgeniy Gorely

454081, Chelyabinsk,
Geroyev Tankograda Str 28P
tel. +7 (351) 242 05 51
fax: +7 (351) 242 05 51
e-mail: info@tm10.ru
www.tm10.ru

LLC DST-URAL is a modern enterprise producing bulldozers and special machinery based on the crawler tractor.

Bulldozers of 5 traction classes of up to 40 tons are currently produced. The equipment is used by large enterprises of the Russian extractive industries and small private companies working in the fields of mining, road construction and gold mining.

Types of equipment produced:

- Bulldozers

JSC PA YelAZ

Director General: Kamil Salmanovich

423600 Republic of Tatarstan, Yelabuzhskiy Rayon, Yelabuga, territoriya promyshlennaya ploshchadka Yelabuga, 13 Str, proizvodstvennaya baza No 6 OJSC PA YelAZ
tel. 8 (5557) 5 57 75
e-mail: kansgd@elaz.ru
www.elaz.ru

JSC PA YelAZ is a member of the Russian Union of Oil and Gas Equipment Manufacturers. It is one of the top three manufacturers of mobile equipment for drilling, repairing and servicing of wells.

For more than 30 years JSC PA YelAZ has been producing a wide range of special equipment for oil and gas industry, road construction, municipal and other types of special equipment on the automobile chassis and on the base of Belarus tractor. The plant has extensive production facilities, developed design, technological and service departments.

Types of equipment produced:

- Excavators-loaders
- Excavators-bulldozers

LLC Zavod Gusenichnykh Mashin

Director: Grigoriy Nesterenko

658201, Altayskiy Kray, Rubtsovsk, Traktornaya Str 17
tel. 8 (385) 579 70 10, 8 (962) 821 50 18
e-mail: zavod@zavodgm.ru
www.zavodgm.ru

LLC Zavod Gusenichnykh Mashin produces a wide range of tractors of the 4th, 5th, 6th traction class allowing to cover almost all types of work performed by track-laying machines. The equipment produced can be equipped with a set of trailed and mounted implements to be used in agriculture (plowing, harrowing, cultivation, etc.); in melioration (laying canals, drain construction, cutting shrubs, stump extraction, etc.), in forest industry (felling, skidding, timber loading and transporting, forest road construction, etc.).

Types of equipment produced:

- Bulldozers

LLC Zavod Dorozhnykh Mashin

Director: Pavel Kuznetsov

152900, Yaroslavskaya Oblast, Rybinsk, Pilostavnaya Str 12
tel. (49232) 9 39 65, 9 39 64
e-mail: ant@kemz.org
www.kemz.org

LLC Zavod Dorozhnykh Mashin is a leading Russian developer and manufacturer of specialized equipment for road building, municipal, construction areas, recycling of municipal solid waste, namely:

- road and soil compactors of 600 kg to 20 tons,
- motor graders,
- snow loaders,
- front loaders with a wide range of mounted implements,
- machines for compacting solid waste landfills.

Types of equipment produced:

- Motor graders

КРАНЕКС

CJSC Mezhdunarodnaya Kompaniya KRANEKS

Director General: Andrey Borisov

153007, Ivanovskaya Oblast, Ivanovo, Mineevo dst, KRANEKS
tel. +7 (4932) 35 71 12, 35 72 05
fax: +7 (4932) 37 65 07
e-mail: mk@kraneks.ru; AVBryzgalov@kraneks.ru
www.kraneks.ru

Machine-building group KRANEKS is a group of companies located in Ivanovo on a production site with the area of 45 hectares. They jointly design, manufacture, sell and provide after-sales support for the following main products:

- Services to design the special track-mounted construction equipment
- Hydraulic crawler excavators KRANEKS of 20 to 50 tons
- Metal structures for foreign manufacturers of excavators
- Special equipment and spare parts for construction equipment
- Rock buckets of all sizes
- Steel castings
- Forgings and stampings.

Types of equipment produced:

- Excavators

OJSC KEMZ (Kovrovskiy elektromekhanicheskiy zavod)

General Director: Vladimir Lebedev

601919 Vladimirskaya Oblast, Kovrov,
Krupskoy Str 55
tel. (49232) 9 39 65, 9 39 64
e-mail: ant@kemz.org
www.kemz.org

OJSC KEMZ (Kovrovskiy elektromekhanicheskiy zavod) is a modern high-tech enterprise mainly specialized in hydraulic equipment. It produces road construction machinery under brand "Ant": mini-loaders Ant-750 and Ant-1000, front loaders Ant-3000, excavator-loader Ant-2321, tractors Ant-Zetor 4135F, Ant-4050.

Types of equipment produced:

- Excavators-loaders

LLC SPA GKMP

Deputy Director General: Andrey Iniutin

241022, Bryansk, Shchorsa blv. 7
tel. +7 (4832) 58 18 00, +7 (4832) 58 18 13
fax: +7 (4832) 58 18 00
e-mail: gkmp-irmash@gkmp32.com
www.gkmp32.com, www.irmash.com

Manufacture and sale of road-construction, earthmoving and municipal machinery. Wheeled and caterpillar asphalt pavers, light and heavy motor graders, machines for pothole filling, integrated road machines. Serial production. Warranty and post-warranty service.

Types of equipment produced:

- Motor graders

ОАО "ПРОМТРАКТОР"

OJSC Promtraktor

Chief Executive Officer: Wilsor Haliullin

428027, Republic of Chuvashiya, Cheboksary,
Traktorstroiteley Ave 101
tel. (8352) 30 76 78, 30 46 20
fax: (8352) 30 45 41, 63 37 81
e-mail: prt@promtractor.ru
www.promtractor.tplants.com

OJSC Promtraktor produces bulldozers, pipe laying and wheeled equipment (front loaders, wheeled bulldozers) under the brand CHETRA and caterpillar tractors under the brand AGROMASH for Russian and foreign markets. It is the only producer of heavy caterpillar bulldozers and pipe laying equipment in Russia and CIS countries.

Types of equipment produced:

- Bulldozers

**ПЕТЕРБУРГСКИЙ
ТРАКТОРНЫЙ ЗАВОД**

JSC Peterburgskiy traktorny zavod

Director: Sergey Serebriakov

198097, Saint Petersburg, Stachek Ave 47
tel. +7 (812) 363 46 96 (маркетинг, продажи)
fax: 7 (812) 363 46 96
e-mail: Sergey.Rostov@tdmkz.kzgroup.ru
kirovets-ptz.com

Serial production of 8 modifications of K-744P series agricultural tractors "Kirovets" with the capacity of 300 to 450 hp, 17 types of road-construction and special machines manufactured on the basis of industrial tractors "Kirovets".

Types of equipment produced:

- Bulldozers

LLC SpetsDorMash

Director General: Aleksey Pustozarov

454010, Chelyabinsk, Yeniseyskaya Str, bld 36
tel. +7 351 723 08 80
fax: +7 351 723 08 80
e-mail: sdm@sdm25.ru
www.sdm25.ru

LLC SpetsDorMash is a plant manufacturing heavy motor grader SDM-25. It has its own production base, equipment, vehicles.

The production structure includes: welding shop; mechanical shop, blank production shop with the plasma cutting unit; aggregate area, assembly shop; warehouses of spare parts and metal, warehouses of finished products.

Types of equipment produced:

- Motor graders

CJSC Tverskoy ekskavator

Director General: Kirill Epstein

170000, Tver, Industrialnaya Str, bld 11
tel. +7 (495) 728 49 55
fax: +7 (495) 728 49 56
e-mail: info@tvexc.ru; info@rm-terex.com
www.rm-terex.com.

CJSC Tverskoy ekskavator (part of RM-Terex that, in turn, is part of the machine-building holding Russian Machines) is a Russian manufacturer of construction and road machinery with full-cycle production of excavators, excavators-loaders and forklifts on the territory of the Russian Federation.

Types of equipment produced:

- Excavators
- Excavators-loaders
- Telescopic boom excavators

LLC Traktor

Director: Vladimir Andriushchenko

456584, Chelyabinskaya Oblast,
Yemanzhelinsk, Lenina Str, bld 10
tel/fax.: 8 (351) 382 27 44
e-mail: minitractor@mail.ru
www.уралец.рф

Manufacture and sale of Uralets mini tractors and attachable implements.

Types of equipment produced:

- Excavators

HITACHI

Reliable solutions

LLC HKM Eurasia

Head of the Company: Masafumi Sendzaki

170518, Tverskaya Oblast, Kalininskiy Rayon, Lebedevo,
Hitachi Str, bld 1
tel. +7 (4822) 37 14 01
fax: +7 (4822) 37 14 02
e-mail: info@hitachi-kenki.ru
www.hitachicm.ru

Manufacturer of HITACHI caterpillar hydraulic excavators of 18 tons to 33 tons.

Types of equipment produced:

- Caterpillar hydraulic excavator

CJSC Chelyabinskiye stroitelno-dorozhnye mashiny

Director General: Kirill Epstein

454005, Chelyabinsk, Razina Str, bld 1
tel. +7 (495) 728 49 55
fax: +7 (495) 728 49 56
e-mail: LarisaVE@rm-ce.ru; info@rm-terex.com
www.rm-terex.com.

3CJSC Chelyabinskiye stroitelno-dorozhnye mashiny (part of RM-Terex that, in turn, is part of the machine-building holding Russian Machines) is a Russian manufacturer of road-construction machinery with the full-cycle production of motor graders and front loaders on the territory of the Russian Federation.

Types of equipment produced:

- Motor graders

OJSC CLMZ (Cherepovetskiy liteyno-mekhanicheskiy zavod)

Director General: Vladimir Boglaev

162600, Vologodskaya Oblast,
Cherepovets, Stroyindustrii Str 12
tel. (8202) 20 28 38
fax: (8202) 20 28 38
e-mail: chlmz@chlmz.ru
www.chlmz.ru

OJSC CLMZ (Cherepovetskiy liteyno-mekhanicheskiy zavod) is an enterprise with a full set of machine-building technological conversion stages: from blank production, welding and casting to complex and precise machining operations.

Main activities:

- Production of tractors and special machinery
- Production of machinery and equipment for metallurgy
- Petrochemical engineering
- Shaped casting; centrifugal casting
- Production of metal products, metal structures, non-standard equipment
- Metalworking production, pipe welding
- Repair of machinery and equipment
- Cargo transportation with non-specialized motor vehicles.

Types of equipment produced:

- Excavator-loader

LLC Chelyabinskiy traktorny zavod – Uraltrak

Director General: Petr Perevedentsev

454007, Chelyabinsk, Lenina Ave 3
tel. 8 (351) 775 17 60
e-mail: tractor@chtz.ru
www.chtz-uraltrak.ru

LLC Chelyabinskiy traktorny zavod – Uraltrak is an industrial association for production and sale of a wide range of wheeled and caterpillar road-construction equipment (bulldozers, pipe layers, front loaders), spare parts and other high-tech engineering products. Products manufactured by LLC Chelyabinskiy traktorny zavod – Uraltrak are consumed by thousands of enterprises in Russia, CIS and foreign countries that are engaged in various industries, such as oil and gas, mining, construction, forestry and others, as well as government ministries and departments of various countries.

Types of equipment produced:

- Bulldozers

JSC EXMASH

Head of the Company: Gennadiy Egorov

170100, Tver, a/y 0638
tel. +7 (4822) 41 54 41
fax: +7 (4822) 41 54 28
e-mail: post@umg.ru
www.umg.ru

Being the part of UMG Group, this machine-building enterprise is certified according to the international standard ISO 9001. It produces a wide range of road-construction equipment: wheeled and crawler excavators, industrial excavators-reloaders, special-purpose machinery, forestry machines.

Types of equipment produced:

- Excavators

Production of trailers, semi-trailers, tank trucks for transportation of petroleum products, liquefied hydrocarbon gas, bulk materials, grain, seeds, dump trucks for transportation of inert materials, rocks, coal. Machines for road maintenance and repair. Technological equipment for cement industry.

Types of equipment produced:

- Rock spreaders
- Bitumen spraying machines
- Thermal bunkers
- Material transfer vehicles
- Pothole repair machines
- Road wideners

LLC DORPROM International

Director General: Vladimir Zhukov

141240, Moskovskaya Oblast, Pushkino, Mamontovka
 dst, 2-ya Polevaya Str 26
 tel. (495) 773 41 57
 fax: (495) 993 44 59
 e-mail: dorprom@mail.ru
 www.dorprom.ru

LLC DORPROM International has been developing, producing and improving equipment for road repair and maintenance since 1992. The enterprise constantly increases production volumes of thermal bunkers, joint fillers and pothole repair machines. The concept of the company's production activities is oriented to multi-purpose road machines of different types and sizes that can save resources during their operation.

Types of equipment produced:

- Thermal bunkers
- Seam fillers
- Pothole repair machines

LLC Zavod Dorozhnykh Mashin

Director: Pavel Kuznetsov

152900, Yaroslavskaya Oblast,
Rybinsk, Pilostavnaya Str, bld. 12

www.dormashina.ru

LLC Zavod Dorozhnykh Mashin is a leading Russian developer and manufacturer of specialized equipment for road-building, municipal and construction areas, recycling of municipal solid waste, namely:

- road and soil compactors of 600 kg to 20 tons,
- motor graders,
- snow loaders,
- front loaders with a wide range of attached implements,
- machines for compacting solid waste landfills.

Types of equipment produced:

- Road rollers

CJSC KOMZ-Export

Director General: Garik Arushanov

347825, Rostovskaya Oblast, Kamensk-Shakhtinskiy,
Zavodskoy dst, Zavodskaya Str 16
tel. 8 (86365) 63 191, 63 183, 63 033
fax: 8 (86365) 63 191
e-mail: komz@tigarbo.ru; st@tigarbo.ru; dp@tigarbo.ru
www.tigarbo.ru

CJSC KOMZ-Export was founded in 1999. The plant manufactures products under the trademark "TIGARBO". Currently, KOMZ-Export has its own production, assembly and painting shops. Total area of the plant is 2.5 km². TIGARBO equipment is represented in the markets from the Far East to Kaliningrad region. It is well known to consumers in different countries.

Types of equipment produced:

- Truck mixers

JSC Kominvest-AKMT

General Director: Aleksandr Khaletskiy

111539, Moscow, Reutovskaya Str, bld 76
tel. 8 (800) 700 21 22
fax: 8 (495) 212 212 22
e-mail: info@cominvest-akmt.ru
www. cominvest-akmt.ru

JSC Kominvest-AKMT is a manufacturer and supplier of the road construction, repair and maintenance equipment, municipal equipment, equipment for airfield maintenance.

Types of equipment produced:

- Bitumen spraying machines
- Concrete mixing units

OJSC KORMZ

General Director: Aleksandr Sliadnev

650021, Kemerovo, Gruzovaya Str 196
tel. (3842) 571 681, 570 152, 571 429
fax: (3842) 571 681, 570 152, 571 429
e-mail: kormz@kormz.ru
www.kormz.ru

KORMZ is a machine building enterprise specializing in production of municipal and road machinery, as well as in production of attachments for vehicles, motor graders and tractors to perform the entire range of highway maintenance works..

Types of equipment produced:

- Seam fillers

JSC Kurgandormash

Head of the Company: Mikhail Fedulov

640008, Kurgan ,
Avtozavodskaya , 1A, Str 31
tel. 8 (3522) 44 36 20
e-mail: omis@kzdm.ru
www.kzdm.ru

JSC Kurgandormash is a machine-building enterprise specializing in production of road-building and municipal equipment. Strong production base, huge engineering experience, advanced technologies, invariably high quality of the machines produced, just-in-time supplies, full guarantee for each manufactured machine – Kurgandormash will become your stable and reliable partner!

Types of equipment produced:

- Bitumen and crushed stone distributor
- Bitumen spraying machines

LLC SPA GKMP

Deputy Director General: Andrey Iniutin

241022, Bryansk, Shchorsa blv, bld 7
tel. +7 (4832) 58 18 00, +7 (4832) 58 18 13
fax: +7 (4832) 58 18 00

www.gkmp32.com, www.irmash.com

Manufacture and sale of road construction, earthmoving and municipal machinery. Wheeled and caterpillar asphalt pavers, light and heavy motor graders, pothole repair machines, integrated road machines. Serial production. Warranty and post-warranty service.

Types of equipment produced:

- Asphalt pavers
- Pothole repair machines

LLC NPF Bastion

Head of the Company: Dmitriy Chelyadinov

198320, Saint Petersburg, Krasnoye Selo,
Kingiseppskoye Hwy, bld 55
tel. (812) 741 02 65
info@npf-bastion.ru, www.npf-bastion.ru

Research and production company "Bastion" is engaged in production and sale of various equipment for asphalt and concrete factories, road-construction works and road maintenance.

Types of equipment produced:

- Distributors of binders
- Asphalt mixing units
- Bitumen spraying machines
- Thermal bunkers
- Seam fillers
- Infrared asphalt heaters
- Pothole repair machines
- Road machines, equipment for building mixture preparation

JSC RASKAT

Director General: Sergey Borisov

152919, Yaroslavskaaya Oblast, Rybinsk, Truda Str, bld 2
tel. (4855) 203 490, 203 333, 203 276, 203 234,
8 (804) 333 08 52
Fax: (4855)203 333
e-mail: packat@list.ru, raskat203227@yandex.ru
www.-raskat.ru

JSC RASKAT is the oldest and leading domestic enterprise for development and production of compacting road-building machinery. The plant has been operating since 1870. At present, JSC RASKAT produces a wide range of compacting equipment of 1.5 to 26 tons on a serial basis. These are vibrating sidewalk rollers, vibrating asphalt rollers with smooth rollers, vibrating asphalt combined rollers, vibratory soil rollers, static three-shaft and pneumatic-wheel rollers, as well as unique compactors of solid domestic and industrial waste landfills.

Types of equipment produced:

- Rollers

LLC TMK (Tverskaya mekhanicheskaya kompaniya)

General Director: Vladimir Tikhomirov

170100, Tverskaya Oblast, Tver,
Industrialnaya Str, bld 15, Pde 1
tel. +7 (4822) 416147
e-mail: tvermk@tmkom.ru
tmkom.ru

LLC TMK (Tverskaya mekhanicheskaya kompaniya) produces a wide range of road machines and auxiliary equipment. Due to its own production base, the company is able to design and manufacture special equipment, as well as to maintain, repair and upgrade machines for road maintenance.

Types of equipment produced:

- Thermal bunkers
- Seam fillers
- Demarcation machines
- Road marking machines
- Equipment for machines for road construction and maintenance

PJSC TZA (Tuymazinskiy zavod avtobetonovozov)

Director General: Vladimir Kurganov

452755, Republic of Bashkortostan, Tuymazy,
70 Let Oktyabrya Str 17
tel. 8 (800) 222 17 02
e-mail: omtza@kamaz.ru
www.tzacom.ru

PJSC TZA (Tuymazinskiy zavod avtobetonovozov) is one of the largest Russian machine-building enterprises. The main specializations of the enterprise are design and manufacture of special equipment for construction, municipal, agricultural, logging, oil and gas producing industries.

Types of equipment produced:

- Concrete pump truck
- Concrete pump
- Concrete dispenser
- Autonomous concreting boom
- Concrete pump truck-mixer

LLC PA UDM (UfaDorMash)

Director General: Alexandr Pankratov

450080, Republic of Bashkortostan, Ufa, a/y-07
tel. +7 (347) 29 28 000
mail@ufadormash.ru
www.ufadormash.ru

Production Association UfaDorMash is a leading manufacturer of road construction equipment, an expert in the field of equipment and material procurement for the automotive sector, housing and communal services. The factory is known for its rich experience, impeccable reputation and high-quality products.

Types of equipment produced:

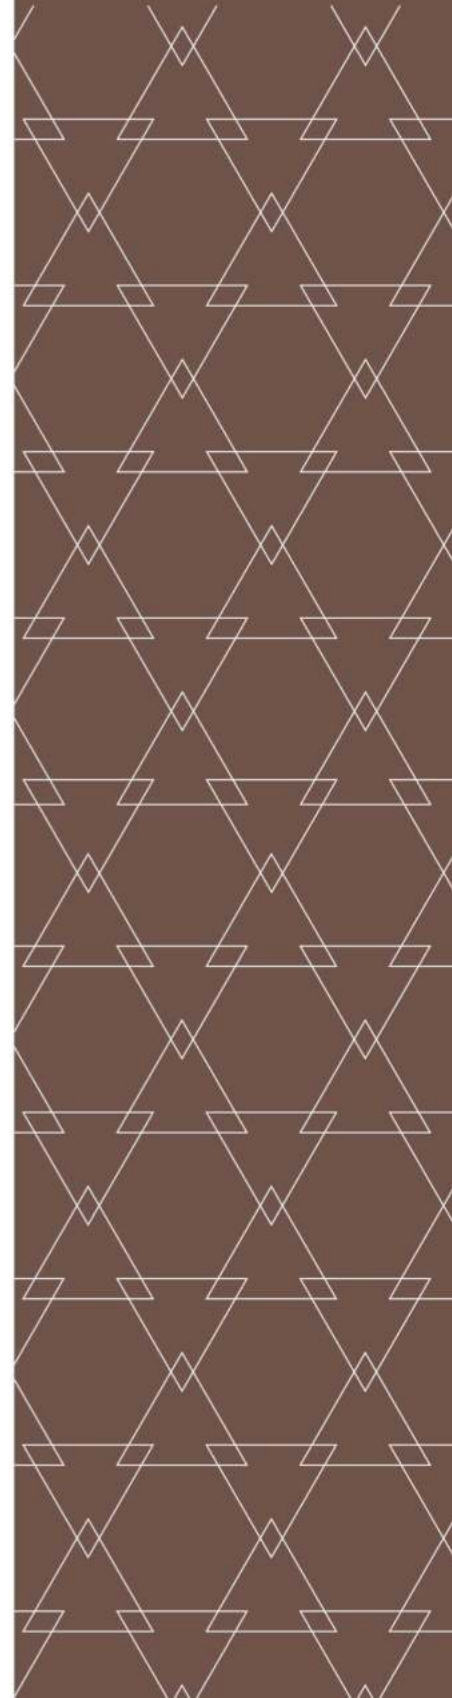

- Asphalt mixing units
- Concrete mixing units
- Rotary hoes
- Seam fillers
- Pothole repair machines

www.tonar.info

LLC Mashinostroitelnyy zavod Tonar is the largest Russian manufacturer of towed machinery and semitrailers, the only Russian producer of mine dump trucks and high-capacity truck trains.

Manufacturing of new models is accompanied by continuous modernization of the production process. In recent years, the plant has been equipped with robotic systems for plasma cutting of metals, welding of bodies, sides, units and beams of axles. Managers of the Company pay special attention to safety issues: Tonar equipment is equipped with assemblies and components from world famous manufacturers and complies with all UNECE standards. Before going on sale, the equipment undergoes serious and long-term tests at the plant's own motor-transport company with maximum loads and under hard conditions. During the entire testing period, the equipment undergoes the continuous analysis of its operational and consumer properties. The plant currently produces more than one hundred models of towed machinery.

Types of equipment produced:

- Dumpers

LLC UralSpetsTrans

Director: Alexey Menshikov

www.ufadormash.ru

Production Association UfaDorMash is a leading manufacturer of road construction equipment, an expert in the field of equipment and material procurement for the automotive sector, housing and municipal services. The plant is known for its rich experience, impeccable reputation and high-quality products.

Types of equipment produced:

- Equipment for municipal machines

OJSC CLMZ (OJSC Cherepovetskiy liteyno-mekhanicheskiy zavod)

Director General: Vladimir Boglaev

162600, Vologodskaya Oblast,
Cherepovets, Stroyindustrii Str 12
tel. (8202) 20 28 38
fax: (8202) 20 28 38
e-mail: chlzmz@chlzmz.ru
www.chlzmz.ru

OJSC CLMZ (OJSC Cherepovetskiy liteyno-mekhanicheskiy zavod) is an enterprise with a full range of technological conversions for machine building: from blanking, welding and casting to complex and precise machining operations.

Main activities:

- Production of tractors and special machinery
- Production of machinery and equipment for metallurgy
- Petrochemical engineering
- Shaped casting; centrifugal casting
- Production of metal products, metal structures, and non-standard equipment
- Metalworking production, pipe welding
- Machinery and equipment repair
- Cargo transportation with non-specialized motor vehicles.

Types of equipment produced:

- Municipal machines
- Cleaning and loading machines for urban communal services

LLC Ekotekh-Trading

Director General: Andrey Belotserkovsky

117105, Moscow, Varshavskoye Hwy, bld 17, apt 1, office 301
tel. 8 (495) 128 16 25
fax: 8 (495) 128 16 25
e-mail: sales@ecomtech.ru
Musorovoz.ru

Ekotekh is a leading company known for its numerous developments in the field of municipal engineering. Production of waste trucks is one of the leading activities of our company.

Types of equipment produced:

- Waste trucks

CJSC MC Yaroslavich

Director General: Gennady Khayetsky

150539, Yaroslavskaya Oblast, Yaroslavskiy Rayon, Lesnaya Polyana Str, bld 43
tel. (4852) 76 48 10
fax: (4852) 76 48 11
e-mail: pkyar@pkyar.ru
www.pkyar.ru

Full-cycle production of machinery: municipal road machinery and equipment, soil-cultivating machinery for agriculture, semi-trailers with the carrying capacity 2 to 25 tons.

Types of equipment produced:

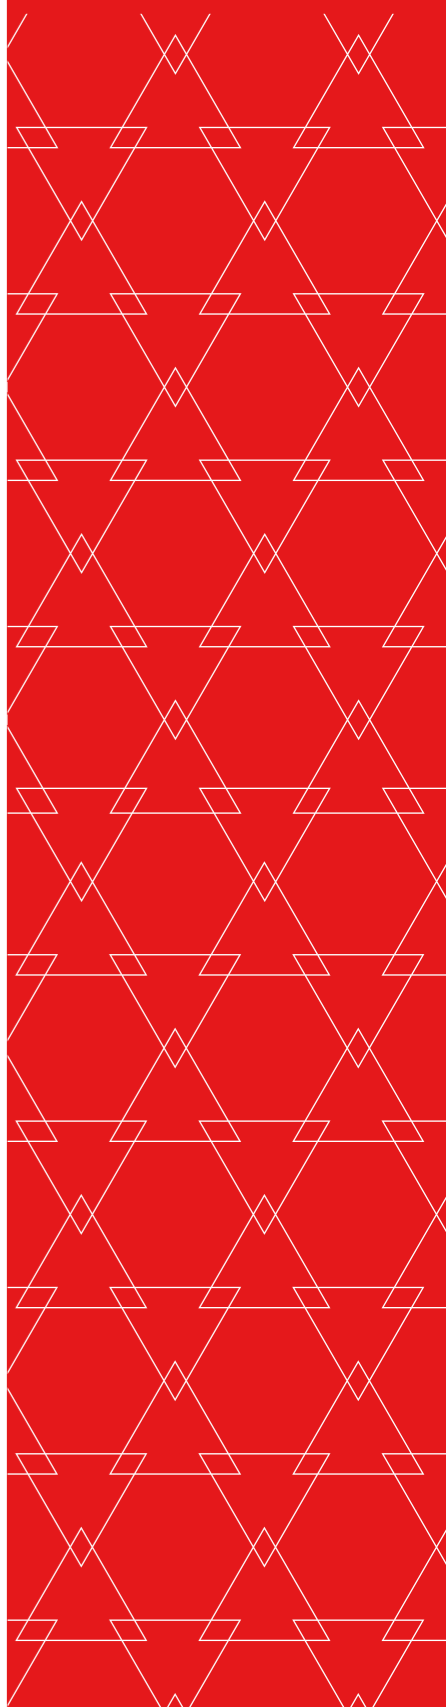

- Combined road machines
- Snow ploughs
- Equipment for multipurpose road maintenance vehicles

Trailers and Semitrailers

Production of trailers, semi-trailers, tank trucks for transportation of petroleum products, liquefied hydrocarbon gas, bulk materials, grain, seeds, dump trucks for transportation of inert materials, rocks, coal. Machines for road maintenance and repair. Technological equipment for cement industry. промышленности.

Types of equipment produced:

- Trailers:
 - dump trailers
 - gasoline tank trailers
 - bitumen trailers
 - gas tank trailers
- Semitrailers:
 - dump semitrailers
 - gasoline tank semitrailers
 - bitumen semitrailers
 - cement semitrailers
 - flour tanks semitrailers
 - milk tank semitrailers

LLC BONUM

Director General: Alexandr Mikhaylenko

344091, Rostovskaya Oblast, Rostov-na-Donu,
Peskova Str, bld 1/2/169A/3, liter D, apt 48
tel. +7 (863) 310 01 22
e-mail: info@bonum-trailer.ru
www.bonum-trailer.ru

BONUM factory produces gasoline tank trucks, bitumen trucks and cement trucks that comply with Russian and European quality standards. BONUM equipment has won many federal and regional awards.
BONUM semitrailer tanks are used on the entire territory of Russia and CIS countries.

Types of equipment produced:

- Semitrailers:
 - gasoline tank trucks
 - bitumen trucks
 - cement trucks

LLC Vologodskiye mashiny

Director: Leonid Fedonov

160019, Vologda, Dobroliubova Str 68a
tel. +7 (8172) 54 88 44, 54 66 00

Manufacture of stainless steel truck tanks, semitrailer tanks and tank trailers for transportation of food and a number of technical fluids.

Types of equipment produced:

- Tank trailers for transportation of food and technical liquids
- Semitrailers tanks for transportation of food and technical liquids, bitumen trucks

JSC Zavod GRAZ

Director General: Alexandr Zhukov

442770, Penzenskaya Oblast, Bessonovskiy Rayon,
Grabovo, Kirpichnaya Str 58
tel. +7 (84140) 2 32 95
fax: +7 (84140) 2 32 79
e-mail: sale@graz.ru
www.graz.ru

GRAZ is one of the largest plants in Russia that produces tank equipment.
The range of the equipment produced by the plant: truck tanks and fuel servicing trucks, including aircraft fuelers, tank trailers and tank semitrailers, bitumen trucks, fuel oil trucks (all in all, about 250 models with the cubic capacity of 4.9 to 60 cubic meters).

Types of equipment produced:

- Tank trailers:
 - gasoline tank trucks
 - bitumen trucks
 - oil tankers
- Tank semitrailers:
 - gasoline tank trucks
 - bitumen trucks
 - oil tankers

LLC Grunwald

Director: Aleksey Drach

238313, Kaliningradskaya Oblast,
Gurievskiy Rayon, poselok Pribrezhnoye,
Kaliningradskoye Hwy 1
tel. +7 (4012) 99 48 08, 8 (800) 350 28 50
e-mail: info@grunwald.ru
www.grunwald.ru

Grunwald is one of the leading Russian manufacturers of semitrailers and superstructures and a leading company in the field of advanced technical solutions. It has modern production facilities. Starting from its foundation and to the present moment, the company has introduced advanced technologies and world experience to the Russian market.

Types of equipment produced:

- Semitrailers:
 - dump semitrailers
 - drop-side semitrailers
 - container semitrailers
 - chassis for refrigerated semitrailers

JSC Zavodoukovskiy mashzavod

Director General: Alexandr Parshin

627144, Tyumenskaya Oblast, Zavodoukovsk, Zavodskaya Str 1a
tel. (34542) 2 32 39, 24 3 39

www.kedrvagon.ru

JSC Zavodoukovskiy mashzavod produces 2- and 3-axle tractor trailers with dumper and isothermal bodies, as well as 2-axle tractor dump semitrailers

Types of equipment produced:

- Two-axle tractor trailers
- Three-axle tractor trailers
- Tractor trailers for agricultural and forestry purposes
- Tractor dumper semitrailers

LLC InterPipe VAN (LLC IPV)

Director General: O. Lutskevich

109428, Moscow, 1-y Vyazovskiy proyezd 7, Pde 1
tel. (495) 709 33 15
fax: (495) 709 33 16
e-mail: ipv@ipv.ru
www.ipv.ru

Russian manufacturer of cargo-carrying machines and towed machinery.

Types of equipment produced:

- Trailers and semitrailers:
 - dump
 - drop-side
 - curtain-sided
 - logging
 - container carriers
 - isometric
 - refrigerators
 - vans

CJSC KAPRI

Director General: Alexey Samsonov

187323, Leningradskaya Oblast, Kirovskiy Rayon, Pavlovo, Staroye Hwy, bld 12A
tel. (812) 449-75-12, (812)449-75-13
e-mail: office@kapri.ru; market@kapri.ru
www.kapri.ru

CJSC KAPRI is engaged in production of automobile vehicles for liquid substance transportation.

Types of equipment produced:

- Trailers and semitrailers:
 - gasoline tank trucks
 - bitumen trucks

CJSC Mosdesignmash

Director General: Vladislav Pechenin

119361, Moscow, Ozernaya Str 46, Pde 2
tel. +7 (495) 649 33 55, +7 (495) 649 33 77
e-mail: mdm@mosdesignmash.ru
mosdesignmash.ru

During the entire period of its business activities, Mosdesignmash gained the best reputation on the Russian market of refrigeration equipment. The main focus of the company is on the product quality. And this approach fully justifies itself. Only advanced technologies and modern materials allow ensuring the required level of quality. Mosdesignmash is ready to offer its customers the widest range of vans. Bodies of multi-temperature refrigerators, bodies with sliding walls, multi-sectional bodies, vehicle flat bodies and a lot of other types of equipment are produced under the company's brand.

Types of equipment produced:

- Trailers:
 - vans
- Semitrailers:
 - isometric,
 - refrigerated
 - carcass trucks

PJSC NEFAZ

Director General of PJSC NEFAZ: Sergei Zuikov

452680, Republic of Bashkortostan,
Neftekamsk, Yanaulskaya Str 3
tel. (34783) 2 04 80
fax: (34783) 2 32 16
e-mail: nefaz@nefaz.ru
www.nefaz.ru

PJSC NEFAZ is a part of the group of enterprises of PJSC KAMAZ. It is the largest factory in Russia that manufactures special superstructures for KAMAZ chassis. It has many years of experience in production of towed machinery, tank vehicles and agricultural machines.

Types of equipment produced:

- Trailers:
 - dump trucks
 - tanks (gasoline tank trucks, bitumen trucks, potable water trucks)
 - drop-side
 - short log trucks
- Semitrailers:
 - gasoline tank trucks
 - bitumen trucks
 - oil tankers
 - dump trucks
 - drop-side semitrailers
 - curtain-sided
 - container carriers

OJSC NovosibARZ

Director General: Vadim Ananchenko

630033, Novosibirsk, Anikina Str 29
tel. (383) 373 54 25
e-mail: novosibarz@mail.ru
novosibarz.com

OJSC NovosibARZ is a modern enterprise that has been steadily developing in the area of transport engineering. Semi-trailers (short log trucks and drop-side multi-purpose semitrailers) are the main item in the range of products manufactured by the enterprise. Engineering design is performed by our own design department. Our products is used in the Far North, Western and Eastern Siberia and the Far East.

Types of equipment produced:

- Trailers:
 - short log trucks
- Semitrailers:
 - short log trucks
 - drop-side semitrailers

CJSC Novtrak

Director General: Sven Kube

Velikiy Novgorod, Magistralnaya Str 15
tel. (8162) 944 000
fax: (8162) 944 009
e-mail: info@m-nov.ru
m-nov.ru

Meusbürger Novtrack offers its customers the most optimum and useful solutions for any, even very non-standard transportation task. The enterprise produces a wide range of equipment: short log trucks, container trucks, dumper, curtain trailers, low-bed vehicles, special trailers. The manufacture of each model is based on modern European trends in production of trailed equipment, design developments and technologies of the "main" plant.

Types of equipment produced:

- Semitrailers:
 - low-bed
 - covered (curtain type)
 - container carriers
 - dump trucks
 - sided semitrailers
 - grain trucks
 - chip carriers
 - metal carriers

LLC PKF Politrans

Manager: Evgeny Domokurov

454091, Chelyabinsk, Truda Str, bld 78, office 806
tel. +7 (351) 245 39 17, +7 (351) 247 49 67
fax: +7 (351) 245 39 17, +7 (351) 247 49 67
e-mail: info@politrans.ru
www.politrans.ru

LLC PKF Politrans is a leading developer and manufacturer of heavy-duty trailed equipment, tank vehicles and wagon equipment. The plant has been operating for more than 18 years. Design and quality of the equipment produced by the enterprise are advanced among Russian enterprises.

Types of equipment produced:

- Trailers:
 - drop-side trailers
 - low-bed trailers
 - high-bed trailers
 - short log trucks
- Semitrailers:
 - drop-side semitrailers
 - low-bed semitrailers
 - high-bed semitrailers
 - tanks
 - short log trucks
 - dump trucks

LLC RusKomTrans

Director General: Yury Flegontov

606400 Nizhegorodskaya Oblast,
Balakhna, Pervomayskaya Str 32
tel. (831) 296 11 77
fax: (831) 296 11 77
e-mail: info@roskomtrans.ru
www.ruscomtrans.ru

Plant of commercial vehicles RUSKOMTRANS is a manufacturer of a wide range of special equipment: loader cranes, truck-mounted hydraulic lifts, tow trucks, mobile workshops, laboratories and special vehicles, as well as tank trucks and tank semitrailers for various purposes.

Types of equipment produced:

- Tank semitrailers:
 - gasoline tank trucks
 - bitumen trucks
 - for food liquids
 - for chemical liquids

JSC SAZ

Managing Director: Vladimir Borisychiev

430030, Republic of Mordoviya, Saransk, Stroitel'naya Str 11
tel. +7 (8342) 77 72 29
fax: +7 (8342) 77 71 27
e-mail: SecrSAZ@gaz.ru
www.samosvalsaz.ru

JSC SAZ has been operating since 1960. It produces dump equipment for medium-duty chassis for construction and agricultural purposes (with three-way and rear unloading, preliminary lifting of the body), municipal vehicles (sewage trucks, garbage trucks, bunker trucks), trailers for passenger cars, spare parts for dump trucks.

Types of equipment produced:

- Trailers

LLC Sevzapspetsmash-Pritsepy

Director General: Viktor Tyukhtin

188527, Leningradskaya Oblast, Lomonosovskiy
Rayon, p/o Orzhitsy, a/y 22
tel. 8 (800) 555 18 97, 8 (812) 448 13 74
e-mail: salestrailers@sp-prizep.ru
www.sp-prizep.ru

Main activities: development, design, full-cycle production and testing of heavy (more than 10 tons of full weight) semitrailers and trailers (for automobiles and tractors) at its own production facilities.

Types of equipment produced:

- Trailers:
 - drop-side trailers
 - low-bed trailers
 - chassis
 - truck mounted material handlers
 - short-log trucks
 - curtain-sided
 - for transportation of boats, day cruisers and yachts
 - for tractors
- Semitrailers:
 - drop-side semitrailers
 - container carriers
 - low-bed semitrailers

CJSC Cheboksarskoye predpriyatiye Sospel

Director: Vladimir Bakshaev

428021, Cheboksary, Leningradskaya Str, bld
36, office 5
tel. 8 (8352) 22 57 22. fax: 8 (8352) 22 47 33
e-mail: zaosespel@yandex.ru, www.sespel.com

CJSC Cheboksarskoye predpriyatiye Sospel is one of the leading transport-engineering enterprises in Russia. The company produces specialized tanks according to international quality standards for various economy sectors – transport, construction, agriculture, oil and gas industry, chemical and food processing industries.

The range includes more than 300 models of tank trucks, tank semi-trailers, tanks on chassis and tank containers of low-alloy and stainless steel, aluminum alloy (tanks for flour and combined feed, grain, cement, petrol, bitumen, gas, water, alcohol, tanks for food and chemical products), as well as plants for friction stir welding, welding multifunctional and welding robotic complexes.

Types of equipment produced:

- Tank trailers:
 - gasoline tank trucks
 - bitumen trucks
 - gas carriers
 - for food liquids
 - for chemical liquids
- Tank semitrailers:
 - gasoline tank trucks
 - oil tankers
 - bitumen carriers
 - cement carriers
 - gas carriers
 - flour carriers
 - for food liquids
 - for chemical liquids
 - lifting tanks
 - fixed tanks

LLC SpecAvto-Vostok

Director General: Evgeny Tkachenko

454007, Chelyabinsk, Lenina Ave 2
tel. (351) 245 34 36
fax: (351) 775 10 52
e-mail: sav@sav-ural.ru
www.sav-ural.ru

LLC SpecAvto-Vostok has been operating since 2001. Machines under CAB brand are adapted to operation in off-road conditions. The company provides a wide range of models: timber, pipe and agricultural machinery; trawls; dump trucks. We are always open to new experience. We also manufacture custom-made machines.

Types of equipment produced:

- Trailers:
 - dump trucks
 - short-log trucks
 - pole trailers
 - gasoline tank trucks
 - bitumen trucks
 - platforms
 - vans
 - tractor trailers
- Semitrailers:
 - dump trucks
 - short-log trucks
 - high-bed (trawls)
 - low-bed (trawls)
 - drop-side semitrailers
 - gasoline tank trucks
 - bitumen trucks
 - platforms
 - isothermal

LLC Kompaniya Specpricep

Director: Mikhail Bitelov

170017, Tver, Melioratorov Proyezd 3B
T. (4822)744430, 744260
fax: (4822)744323
e-mail: info@specpricep.ru
www.specpricep.ru

The company has developed and manufactured modern trailers and semitrailers since 1999. The company produces trailers with up to 6 axles and semi-trailers with up to 10 axles. Modular systems in the form of trailers and semi-trailers carry loads of up to 600 tons. The company manufactures products with an active drive and self-propelled modular systems that have no analogues in the Russian Federation.

Types of equipment produced:

- Trailers (trawls):
 - beam carriers
 - panel carriers
 - pipeline carriers
 - container carriers
 - modular trailers
 - low-bed trailers
 - special trailers
- Semitrailers (trawls):
 - beam carriers
 - panel carriers
 - pipeline carriers
 - container carriers
 - modular trailers
 - low-bed semitrailers
 - special-purpose semitrailers

LLC Tverstroy mash

Director General: Sergei Bochenkov

170040, Tver, Staritskoe Hwy 30
tel. 8 (4822) 736 600
fax: 8 (4822) 736 600
e-mail: info@tverstroy mash.ru
www.tverstroy mash.ru

Manufacturer of automobile semi-trailers and trailers. The company is the leading manufacturer of semi-trailers for large and heavy loads in Russia. In the city of Tver, the area of production facilities of Tverstroy mash is 18,000 sq. m., including a new workshop with the area of 5,500 sq. m. The company has everything required for the production of high-quality and modern trailers and semi-trailers – equipment for metal processing, welding, surface preparation, painting of products. The product line of Tverstroy mash consists of 11 series of transport facilities: basic low-bed trailers, ultra-lightweight semi-trailers, semitrailers with a sliding platform, cross-country semitrailers, semi-trailers with low loading height, semi-trailers with detachable gooseneck, container semitrailers, drop-side semitrailers and platforms, dumper semitrailers, timber semitrailers and trailers.

Types of equipment produced:

- Trailers:
 - low-bed trawls
 - high-bed trawls
 - drop-side trailers
- Semitrailers:
 - low-bed trawls
 - high-bed trawls
 - drop-side semitrailers
 - container carriers
 - timber trucks
 - dump trucks
- Equipment for trailers and semitrailers

LLC TMK (Tverskaya mekhanicheskaya kompaniya)

Director General: Vladimir Tikhomirov

170100, Tverskaya Oblast, Tver,
Industrialnaya Str 15, Pde 1
tel. +7 (4822) 416147
e-mail: tvermk@tmkom.ru
tmkom.ru

LLC TMK (Tverskaya mekhanicheskaya kompaniya) produces a wide range of road machines and auxiliary equipment. Its own production base allows the company to design and manufacture special equipment, as well as to maintain, repair and upgrade machines for road maintenance.

Types of equipment produced:

- Trailers with a lifting platform

LLC Mashinostroitelnyy zavod Tonar

Director General: Denis Krivtsov

142635, Moskovskaya Oblast, Orekhovo-Zuyevskiy Rayon, Belavinskoye s/p, Gubino, Leninskaya-1 Str bld 76A
tel. 8 (4964) 414 85 01 (secretary),
8 (4964) 4148502 (account department)
e-mail: info@tonar.net, buch@tonar.info, www.tonar.info

LLC Mashinostroitelnyy zavod Tonar is the largest Russian manufacturer of towed equipment and semitrailers, and the only Russian producer of mine dump trucks and high-capacity truck trains.

The process for manufacturing new models is accompanied by the continuous production modernization. In recent years, the plant has been equipped with robotic systems for plasma cutting of metals, welding of bodies, sides, units and beams of axles.

Managers of the Company pays special attention to safety issues: Tonar machines are equipped with assemblies and components from world famous manufacturers in compliance with all UNECE standards. Before going on sale, all equipment undergoes serious and long-term tests at the plant's own motor-transport company with maximum loads and under hard conditions. During the entire testing period, operational and consumer properties of the equipment undergo constant analysis. Currently the plant produces more than one hundred models of trailed equipment.

Types of equipment produced:

- Trailers:
 - dump trucks
 - tractor trailers
- Semitrailers:
 - dump trucks
 - drop-side semitrailers
 - curtain-sided
 - insulated
 - refrigerators
 - container carriers
 - trawls (platform)
 - sliding floors
 - short log trucks
 - agricultural semitrailers for livestock transportation
- Mine dump trucks

LLC Traktor

Director: Vladimir Andriushchenko

456584, Chelyabinskaya Oblast, Yemanzhelinsk, Lenina Str, bld 10
tel/fax: 8 (351) 382 27 44
e-mail: minitractor@mail.ru
www.уралец.рф

Manufacture and sale of Uralets mini tractors and attachable implements.

Types of equipment produced:

- Semitrailers

PJSC TZA (Tuymazinskiy zavod avtobetonovozov)

Director General: Vladimir Kurganov

452755, Republic of Bashkortostan, Tuymazy, 70 Let Oktyabrya Str 17
tel. 8 (800) 222 17 02
e-mail: omtza@kamaz.ru
www.tzacom.ru

PJSC TZA (part of the group of company PJSC KAMAZ) is one of the largest Russian machine-building enterprises. The main specializations of the enterprise are design and manufacture of special equipment for construction, municipal, agricultural, logging, oil and gas industries.

Types of equipment produced:

- trailers:
- - dump trucks

PJSC Uralavtopritsep

Head of the Company: Valery Filatov

454038, Chelyabinsk, Khlebozavodskaya Str 5
tel. 8 (351) 217 01 00
fax: 8 (351) 217 01 00
e-mail: sales@cmzap.ru
www.cmzap.ru

PJSC Uralavtopritsep is a founder of the domestic trailer building industry. The company specializes in production of trailers and semitrailers of various types and purposes with the carrying capacity of up to 2,000 tons and their spare parts.

Types of equipment produced:

- Trailers:
 - dump trucks
 - curtain-sided
 - high-bed trawls
 - low-bed trawls
 - beam carriers
 - modules
 - panel carriers
 - short log trucks
- Semitrailers:
 - dump trucks
 - curtain-sided
 - metal carriers
 - panel carriers
 - container carriers
 - high-bed trawls
 - low-bed trawls
 - beam carriers
 - short log trucks
- Equipment for trailers and semitrailers

LLC UralSpetsTrans

Director: Aleksey Menshikov

456320, Chelyabinsk Oblast, Miass, Makeyeva Str 56
tel. 8 (351) 211 67 77
fax: 8 (351) 211 67 77
e-mail: zavod@ust.ru
www.uralst.ru

LLC UralSpetsTrans is a modern machine-building plant with unique production technologies and modern equipment. Development and production of custom-made special equipment. Delivery of certified spare parts.

Types of equipment produced::

- Trailers:
 - gasoline tank trucks
 - oil tank trucks
 - for transportation of food liquids
 - drop-side trailers
 - chassis
- Semitrailers:
 - drop-side semitrailers
 - container carriers
 - oil tank trucks
 - for transportation of food liquids
 - for transportation of technical water
 - bitumen trucks
 - vacuum semitrailers

LLC Foxtank motors

Chief Executive Officer: Sergey Kozheurov

607650, Nizhegorodskaya Oblast, Kstovo, a/y 2

Production of modern fire-fighting equipment: fire motor ladders with the working height up to 55 m, foam towers 33 to 55 m, telescopic aerial lifting platforms with extension height of 33 to 72 m on chassis from KAMAZ, IVECO-AMT and other manufacturers.

Types of equipment produced:

- Targeted fire-fighting equipment
- Special-purpose fire-trucks
- Equipment for firefighting machinery

LLC Lipetskiy zavod malykh kommunalnykh mashin

Director General: Vladimir Zaitsev

OJSC CLMZ (Cherepovetskiy
liteyno-mekhanicheskiy zavod) is an enterprise
with a full set of machine-building technological
conversion stages: from blank production, welding
and casting to complex and precise machining
operations.

Main activities:

- Production of tractors and special machinery
- Production of machinery and equipment for metallurgy
- Petrochemical engineering
- Shaped casting; centrifugal casting
- Production of metal products, metal structures,
non-standard equipment
- Metalworking production, pipe welding
- Repair of machinery and equipment
- Cargo transportation with non-specialized motor
vehicles.

Types of equipment produced:

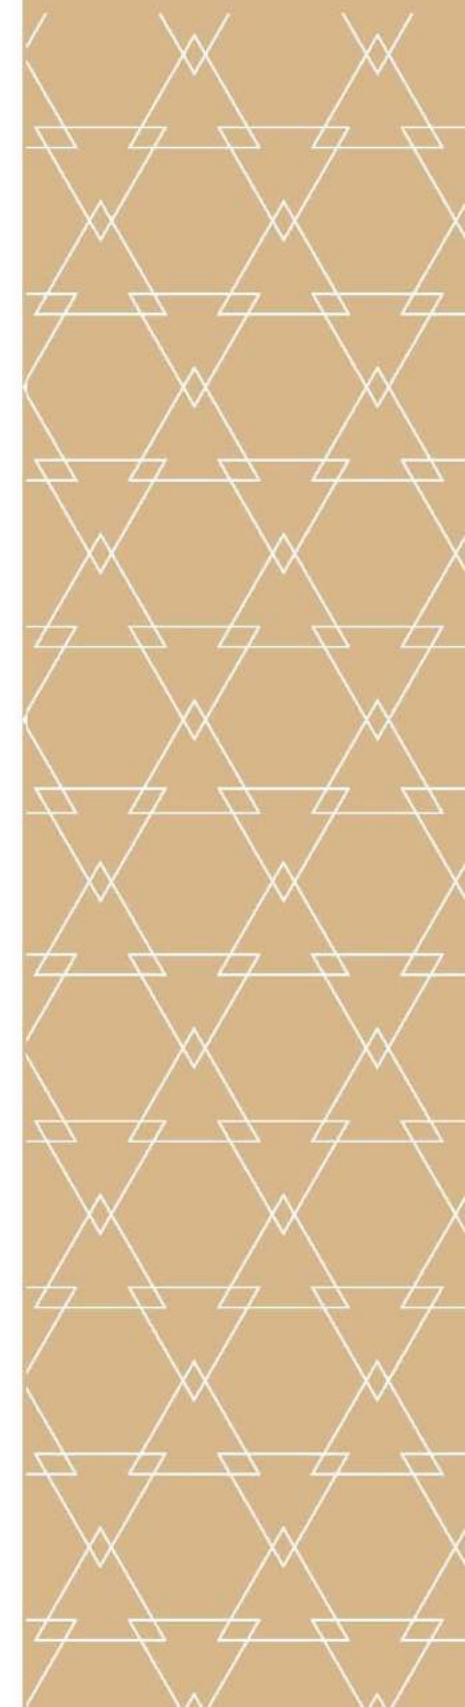

- Wheeled tractors

PJSC Agregatnyy zavod

Director General: Evgeny Vainmaer

249401, Kaluzhskaya Oblast, Liudinovo,
 Cherniakhovskogo Str, bld 13
 tel. (48444) 6 98 09; (484444) 6 98 08
 fax: (48444) 6 99 24; (48444) 6 64 22
 e-mail: info@agregat-pro.ru
 www.agregat-pro.ru

PJSC Agregatnyy zavod is one of the leading enterprises in Russia and CIS countries for production of hydraulics for all industries, the largest supplier of power hydraulic equipment for general, special and mining purposes. The company manufactures high quality products. The quality management system is certified for compliance with requirements of international standard DIN EN ISO 9001: 2000.

Types of equipment produced:

- Components of power hydraulics

SPECIAL-PURPOSE MACHINE

JSC Arzamassky priborostroitelny zavod imeni P.I.Plandina

Director General: Oleg Lavrichev

607220, Nizhegorodskaya Oblast, Arzamas, 50
 Let VLKSM Str 8A
 tel. 8 (83147) 7 91 33, fax: 8 (83147) 7 95 77
 e-mail: apz@oaoapz.com, www.oaoapz.com

JSC Arzamassky priborostroitelny zavod imeni P.I.Plandina is one of the leading enterprises of defense-industrial sector. It is a world-famous plant producing devices for aviation, rocket, space industries, as well as a wide range of civilian products. For more than half a century of its operation, the company has accumulated vast experience in design and manufacture of gyroscopic instruments, control systems, onboard electronic computers, steering gears, control and verification systems, as well as flow-measuring and medical equipment.

Types of equipment produced:

- One-sided hydraulic lock: it is used in hydraulic drives of road-construction machines and machines used for municipal services. The device is designed for free passage of working fluid in the forward direction, and when supplying control pressure – in the opposite direction.
- Case-contained hydraulic safety valve PK-787: it is designed to protect hydrostatic hydraulic actuators against the pressure that exceeds the preset one.
- Hydraulic safety valve with unloading PKR-787: it is designed to protect hydrostatic hydraulic actuators against the pressure that exceeds the preset one, as well as to unload hydraulic systems when safety devices are activated in hydraulic systems of construction, road and municipal machines.
- Hydraulic regulating valve GKR-20-160-25: it is designed to protect hydrostatic hydraulic actuators against the pressure that exceeds the preset one, and also for unloading hydraulic systems when safety devices are activated in hydraulic systems of construction, road and municipal machines.
- Hydraulic safety valve KP 1: it is designed to protect hydrostatic hydraulic actuators against the pressure that exceeds the preset value in hydraulic systems of construction, road and municipal machines. The hydraulic valves are fully interchangeable with hydraulic valves type 510.20 and 510.32; they are characterized by increased operational reliability due to the modified design of the valve of the 2nd cascade.
- Pneumatic valve PK-1M: it is designed to control the compressed air supply by an electrical signal; it is used in equipment of mill complexes.

OJSC Hidroprivod

Director General: Vladimir Mezinov

399772, Lipetskaya Oblast, Yelets, A.Gayterovoy Str 6

e-mail: general@psmural.ru, www.psm-hydraulics.ru

PSM-HYDRAULICS® is a Russian leader in design, production and sale of axial-piston hydraulic machines and hydraulic valves. Quality of hydraulic equipment produced by the company is ahead of the Russian market. The company's products are used in more than 500 types of machines in all branches of engineering.

Today the company is developing new markets, including foreign ones. In 2005, managers of the company took an important step in shaping the image of the plant: PSM-HYDRAULICS® brand was created.

Modern hydraulic machines are manufactured with the use of high-precision and high-performance equipment from world's leading machine tool manufacturers.

One of the important strategic directions of company activity is improvement of cooperation with Russian machine-building enterprises and satisfaction of demand of foreign hydraulics consumers.

Types of equipment produced:

- Hydraulic pumps
- Hydraulic control valves
- Hydraulic motors
- Hydraulic valve equipment
- Hydraulic control units
- Pump units
- Gear motors

LLC SalavatGidravlika

Director General: Aleksey Sobolev

453253, Republic of Bashkortostan, Salavat,
Industrialnaya Str 5
tel. (3476) 38 84 00
fax: (3437) 38 84 01
sg@salavatgidravlika.ru
www.salavatgidravlika.ru

The main activities of LLC SalavatGidravlika include production of hydraulic products for special (military) and civilian use, in particular, hydrostatic drives in monoblock, separate hydrostatic transmissions, axial-piston adjustable and non-adjustable hydraulic motors and hydraulic pumps (with straight body and support washer) under the license of West-German company Sauer Getriebe, as well as hydraulic filters and valves for various purposes.

The company's products are used by manufacturers of military track-laying vehicles, plants to equip the mobile military machines as well as road-construction, municipal and agricultural machinery, etc.

Types of equipment produced:

- Hydraulic pumps
- Hydraulic motors

LLC Sevzapspetsmash-Pritsepy

Director General: Viktor Tiukhtin

188527, Leningradskaya Oblast, Lomonosovskiy
Rayon, p/o Orzhytsy, a/y 22
tel. 8 (800) 555 18 97, 8 (812) 448 13 74
e-mail: salestrailers@sp-prizep.ru
www.sp-prizep.ru

Main area of activity: development, design, full cycle of manufacturing and testing at its own production facilities of heavy (more than 10 tons of full weight) semitrailers and trailers (both for automobiles and tractors).

Types of equipment produced:

- Axle 420x135 with the maximum permissible axle load of 10,000 kg
- Low-bed axle 320x150 with the maximum permissible load of 9,000 kg
- Box-contained pneumatic suspension of NM-AL series
- Spring balanced mechanical suspension of NM-ML series

CJSC Soyuzgidravlika

Director General: Sergey Ryabchun

Belgorod, Rabochaya St 14
tel/fax: +7 (4722) 21 13 59, 300 786
e-mail: unionhyd@mail.ru
www.soyuzgidravlika.com, www.belar.ru

CJSC Soyuzgidravlika is a specialized enterprise with a closed technological cycle for production of gear pumps and high-pressure hoses for hydraulic systems of mobile machines. Trademark BELAR.

Types of equipment produced:

- Gear pumps with box-shaped workpieces
- Double-acting reciprocating hydraulic cylinders

PJSC Tutayevskiy motornyy zavod

Director General: Vitaly Gribanov

152303, Yaroslavskaya Oblast, Tutayev, Stroiteley
Str 1
tel. +7 (48533) 2 00 01
fax: +7 (48533) 2 19 91
e-mail: info@paotmz.ru
www.paotmz.ru

PJSC Tutayevskiy motornyy zavod is a large machine-building enterprise specializing in production of diesel engines for the most important industries, including agricultural machinery, road construction, special and transport engineering. The enterprise is a city-forming company.

Types of equipment produced:

- Engines

PJSC Uralavtopritsep

Head of the Company: Valery Filatov

454038, Chelyabinsk, Khlebozavodskaya Str 5
tel. 8 (351) 217 01 00
fax: 8 (351) 217 01 00
e-mail: sales@cmzap.ru
www.cmzap.ru

PJSC Uralavtopritsep is a founder of the domestic trailer building industry that specializes in production of trailers and semitrailers of various types and purposes with the carrying capacity of up to 2,000 tons and their spare parts.

Types of equipment produced:

- Axles for towed machinery

PJSC CKPZ

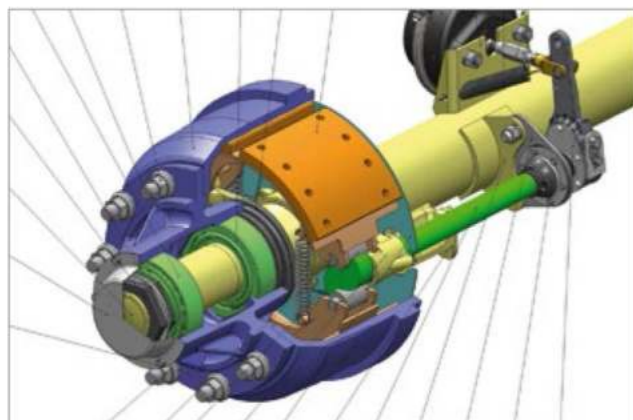

Director General: Andrey Gartung

454012, Chelyabinsk, Gorelova Str 12
tel. 8 (351) 259 10 59
fax: 8 (351) 259 46 61
e-mail: hartung@chkpz.ru
chkpz.ru

PJSC CKPZ produces trailed equipment under the trademark HARTUNG. More than 1,500 modifications of trailed equipment with the carrying capacity from 14 to 95 tons are produced. A distinctive feature of the process of production of HARTUNG equipment is deep specialization and competence.

Types of equipment produced:

- Bulldozer and excavator tracks
- Bulldozer and excavator chains
- Double flange and single flange track rollers for bulldozers and excavators
- Bulldozer and excavator idler wheels
- Segments of drive sprockets for bulldozers and excavators

LLC Cheboksarskiy agregatnyy zavod

Executive Director: Wilsor Haliullin

428022, Republic of Chuvashiya, Cheboksary, Mira Ave 1
tel. (8352) 30 95 05
fax: (8352) 28 22 12
e-mail: chaz@chaz.ru
www.chaz.ru

For many years, LLC Cheboksarskiy agregatnyy zavod has been a leader in production of running systems for caterpillar machinery. It steadily improves the quality of manufactured products. The enterprise produces caterpillars for all types of industrial tractors manufactured by enterprises in Russia and CIS countries.

Types of equipment produced:

- Spare parts and components for earthmoving machinery

LLC PA UDM (UfaDorMash)

Director General: Alexandr Pankratov

450080, Republic of Bashkortostan, Ufa, a/y 07
tel. +7 (347) 29 28 000
e-mail: mail@ufadormash.ru
www.ufadormash.ru

Production association UfaDorMash is a leading manufacturer of road-building equipment and an expert in the field of procurements for automobile sector, housing and municipal services. The plant is known for its rich experience, impeccable reputation and high-quality products.

Types of equipment produced:

- Equipment for earthmoving machinery

JSC SZG

Manager: Nikolay Gerken

346513, Rostovskaya Oblast, Shakhty, Yakutsky Ln, bld 2
tel. (8636) 22 06 40
fax: (8636) 25 94 89
e-mail: zavod@gidroprivod.ru
www.gidroprivod.ru

JSC SZG is a modern high-tech enterprise with multi-profile production:

- hydraulic motors and hydraulic pumps, hydraulic stations, hydrostatic mechanisms for turning self-propelled machines, hydraulic distributors, hydraulic units;
- castings of cast iron and steel with further machining;
- ready-made components for undercarriage and transmission;
- hydraulic tools.

Types of equipment produced:

- Hydraulic motors
- Hydraulic pumps

The factory is focused on machine-building industry: manufacture and sale of the whole range of repair equipment for oil and gas, construction, housing and communal, agricultural and other industries, installation of truck-loader cranes with the carrying capacity of 500 kg to 12 tons from various manufacturers on chassis of trucks, manufacturing of three dimensional metal structures: mobile housing units on chassis, 1- and 2-storey modular buildings with 1-50 or more modules.

Types of equipment produced:

- Repair complex for repair and maintenance of city heating and water supply systems
- Mobile repair shop for maintenance and repair of motor vehicles and equipment in the field

LLC Zavod tiazhelykh mashin (LLC ZTM)

Director General: Yury Antipov

456300, Chelyabinsk Oblast, Miass, a/y 20
 tel. 8 (3513) 255 709
 e-mail: ooo_ztm@mail.ru
 info@заводтяжелыхмашин.рф

LLC Zavod tiazhelykh mashin (LLC ZTM) was founded on April 01, 2015. It is engaged in development, design and manufacture of chassis of trucks, handling equipment and specialized chassis for oil and gas industry with the high cross-country and carrying capacities.

Types of equipment produced:

- Machinery for drilling equipment transportation
- Mobile platforms

LLC MCF Politrans

Executive manager: Evgeny Domokurov

454091, Chelyabinsk, Truda Str, bld 78, office 806
tel. +7 (351) 245 39 17, +7 (351) 247 49 67

e-mail: info@politrans.ru
www.politrans.ru

LLC MCF Politrans is a leading developer and manufacturer of heavy-duty trailed, tank vehicles and wagon equipment. The plant has been operating for more than 18 years. Design and quality of the equipment produced by the enterprise are advanced among Russian enterprises.

Types of equipment produced:

- Car repair shops
- Refueling trucks
- Vans for transportation of people
- Cesspool emptiers
- Tank trucks for drinking water transportation
- Oil tankers
- Sided trucks
- Tank containers
- Oilfield equipment
- Tank semitrailers

JSC Raskat

Director General: Sergey Borisov

152919, Yaroslavskaya Oblast, Rybinsk, Truda Str, 2
tel. (4855) 203 490, 203 333, 203 276, 203 234,

www.oao-raskat.ru

JSC RASKAT is the oldest and leading domestic enterprise for development and production of compacting road-building machinery. The plant has been operating since 1870. At present, JSC RASKAT serially produces a wide range of compacting equipment of 1.5 to 26 tons. They are vibrating sidewalk rollers, vibrating asphalt rollers with smooth rollers, vibrating asphalt combined rollers, vibratory soil rollers, static three-shaft and pneumatic-wheel rollers, as well as unique compactors of solid domestic and industrial waste landfills.

Types of equipment produced:

- Compactor for solid waste landfill

OJSC Ryazhskiy avtoremzavod

Director General: Yury Kalmykov

391962, Ryazanskaya Oblast, Ryazhsk, Novoryazhskaya Str 86
tel. +7 (49132) 30 498 – secretary,
30 400, 30 245 – sales department, 30 257 – supply department,
30 255 – account department

e-mail: adm@rarz.ru, remzavod@inbox.ru
www@rarz.ru

OJSC Ryazhskiy avtoremzavod was established in 2002 to manufacture special-purpose vehicles: vehicles for public utilities and road maintenance, special equipment for machines for production stimulation, washing and cementing of wells and special equipment for self-loading sweeping tractor trailers.

In 2014, OJSC Ryazhskiy avtoremzavod established its own design and technology department to shorten time for implementation of new developments thanks to application of automation and design methods, modern equipment for computer cutting and bending of metal, qualified engineering and production personnel, which enabled the company to begin production of upgraded municipal machines that meet the requirements of operating organizations with regard to originality of structures, reliable equipment and high quality manufacture. The enterprise has production facilities, its own industrial park and the production base required.

Types of equipment produced:

- Oil and gas equipment

Proizvodstvennoye Obyedineniye Stroytekhnika

Director General: Sergey Chumakov

Moscow, Basmannaya Novaya Str 9/2
tel. (499) 265 0917, (499) 265 0918, 8 (800) 301 0545
e-mail: info@str-t.ru
www.str-t.ru

Proizvodstvennoye Obyedineniye Stroytekhnika operates in the field of construction and engineering. It specializes in supply of basic and auxiliary types of construction equipment, machinery and equipment to profile organizations. The company renders services for renting, installation/dismantling of equipment. Proizvodstvennoye Obyedineniye Stroytekhnika was established in 1971 on the basis of the Ministry of Construction of the USSR. The Association includes factories and industrial enterprises for production of construction equipment, machinery, mechanization and construction equipment located in different cities and regions. Currently, Proizvodstvennoye Obyedineniye Stroytekhnika provides products from domestic manufacturers of construction equipment for Russian and CIS markets, it participates in works related to development, production and promotion of new products.

Types of equipment produced:

- Drilling construction equipment
- Equipment for building water drawdown

OJSC Elektroagregat

Chief Executive Officer: Stanislav Budnikov

305022, Kurskaya Oblast, Kkursk, 2-ya
Agregatnaya Str 5a
tel. (4712) 26 05 50, 36 92 04, 36 93 28
fax: (4712) 36 93 53, 36 93 03
e-mail: ukskursk@yandex.ru, agregat@kursknet.ru
www.electroagregat.ru

OJSC Elektroagregat is a manufacturer of autonomous power supplies:

- fixed and mobile power plants with the capacity of 0.5 to 2,500 kW,
- one- and two-unit products based on Ural and KamAZ chassis;
- mobile and fixed welding units;
- mobile power plants on trailers and in bodies (containers) of own production;

Types of equipment produced:

- Mobile power plants

LLC Urginskiy mashzavod

Director General: Anatoliy Lazarev

652050, Kemerovskaya Oblast, Urga, Shosseynaya Str 3
tel. (384 51) 4 25 24
fax: (384 51) 4 79 50
e-mail: yumz@yumz.ru
www.yumz.ru

LLC Urginskiy mashzavod is a unique complex of multi-profile plants located on a single industrial site: from manufacturing steel of carbon and alloyed grades to making sophisticated high-tech equipment.

The basic nomenclature of the products manufactured:

- mining equipment for underground coal mines, coal mines and other enterprises of mining industry as well as fuel and energy complex of Russia and CIS countries;
- special equipment, handling equipment and agricultural machinery;
- metallurgical products;
- energy production: heat and electricity generation.

Types of equipment produced:

- Oil-extracting equipment
- Metallurgical products

CJSC MC Yaroslavich

Director General: Gennady Khayetsky

150539, Yaroslavskaya Oblast, Yaroslavskiy Rayon, Lesnaya Polyana bld 43
tel. (4852) 76 48 10
fax: (4852) 76 48 11
e-mail: pkyar@pkyar.ru
www.pkyar.ru

Full-cycle production of machinery: municipal road machinery and equipment, soil-cultivating machinery for agriculture, semi-trailers with the carrying capacity of 2 to 25 tons.

Types of equipment produced:

- Attachable front loaders for tractors
- Interchangeable operating elements for front loaders
- Equipment for tractor trailers
